The supreme court has decided that the Minnesota high license law compels the retailers in liquor to pay \$1,000, and the wholesaler can sell without any license whatever. The legislature of last year was not a howling success in every respect.

The Daily News is trying to bolster up its declining subscription list by throwing taffy to the railroad boys. Subscribe for the News it piteously whines, and we will give you a complimentary notice. It should have thought of its subscription list before it began to abuse everybody who happened to entertain different ideas than those it was paid for advocating.

Mr. Kindred, though his daily paper, suggests that the reason the DISPATCH "pretends" to see a discordant element among the republicans over the late club organization arises from jealousy. How we know that Mr. Kindred gave this startling piece of news to his hired man, is because he suggested it to other parties, on Saturday last, as a reason for our remarks about his republicanism, and the item did not appear in his paper until Monday evening. The fact is, Charlie, we are not jealous of anyone, yourself not excepted. We have never aimed to be a political trickster, but we know a few people who have. If Mr. Kindred or the News desire to have the matter aired, they can be accommodated, but for the sake of a few prominent republicans who do not think the facts would tend to benefit any body, we have kept as quiet as possible.

A commission appointed in New York to investigate and ascertain the best method of inflicting the criminal death sentence, have reported in favor of abolishing the gallows and the substitution thereof of electricity. Concerning the efficacy of electricity in dealing the death blow, the commission has produced voluminous and convincing testimony. Eminent medical and scientific men have furnished the commission with the results of experiments upon animals quite as tenacious of life as man, and have shown just what machinery is needed to carry out the capital sentence. It could be provided at an expense of \$250 to \$500. It would consist of a slightly reclining chair with a metallic head and foot rest. Into these the electrodes would be fastened. The current would pass through all the centres of function and intelligence and death would be so instantaneous that sensation could not be possible.

**AS TO THE GAME LAW.**

Speaking of the violation of the game laws, Mr. Timberlake, a member of the state association, said to a Press reporter yesterday: "A friend of mine was up in the country between Brainerd and Duluth and found gang after gang of brawny lumbermen slaughtering the deer and shipping the meat off by rail by the car load. You see, if anybody attempted to interfere with these men, he would be apt to get knocked in the head or perhaps shot for his pains. Under such circumstances I doubt if the deer clause can be enforced at all without strong police force."

There is no doubt but that the laws have been violated to a large extent, but not so much as the above would indicate, and it is not altogether probable that there is any bloodthirsty gang of lumbermen waiting to kill people between Brainerd and Duluth.

**WHAT IT COSTS.**

It cost the Reading Coal company last year, for coal, \$146,000. It cost the same company for the cars. It cost 62 cents a ton to carry the coal to Philadelphia after allowing for maintenance. Including a royalty of 25 cents a ton, the total is \$2.33, yet the whole-sale price of the coal delivered in Philadelphia for family use was \$4.80 per ton, and the retail prices were \$5.85 and \$6 per ton. Out here we are paying nearly \$10 a ton for it. The difference between \$1.48 and \$8 represents freight charges and profits, and to increase the latter the Reading company is denying just wages to its miners and grinding every coal consumer in the country, helped along by the 75 cents a ton tariff which is allowed on bituminous coal—Star-News.

**A STRANGE CASE.**

Tiffin, O., Feb. 1.—Charles Poncecannon injured his arm in a churn factory and it was ground to a pulp. At the same time that this happened, 2:45 p. m., his twin sister who was living over a mile away suddenly cried out in great agony saying that she had a fearful pain in her arm. A physician was sent for and soon after three other physicians arrived, bringing the brother, whose arm they proceeded to amputate at once. While the arm of the brother was being amputated, the sister, who was in the other part of the house and did not know what was going on, suffered terribly; she screamed with agony. It was found necessary to give injections of morphine in her arm to quiet her. When- ever her brother is unusually restless or suffers much, the sister suffers in a similar degree. It is feared that her arm will have to be amputated. The case is puzzling the physicians greatly.

### REPUBLICAN STATE LEAGUE.

The Plumed Knight Undoubtedly the Favorite Among Minnesota Republicans.

MINNEAPOLIS, Feb. 2.—The convention for the organization of a Republican State League assembled at Harmonia Hall, in this city, this afternoon at 2 o'clock, nearly every county in the state being represented. The Brainerd delegates as reported in the convention are Justin Smith, W. A. Fleming, C. L. Spaulding and A. J. Halsted. Among other Brainerdites whose faces your correspondent recognized upon the floor of the convention were Judge C. B. Sleeper, G. S. Fernald and W. W. Hartley. As the entire afternoon was occupied in effecting the preliminary organization, the permanent organization is not yet completed. In the selection of temporary chairman, F. E. Searles, of Stearns county, was chosen. Brainerd is represented on the committee, W. A. Fleming being on the committee on credentials and A. J. Halsted on the committee on resolutions. The convention adjourned at 6 p. m. until 9 o'clock to-morrow, in order to allow the delegates a chance to attend the storming of the ice palace at St. Paul, to-night.

There seems to be a unanimous feeling among the delegates present that James G. Blaine will be the nominee of the republican party for president, and certain it is that Minnesota is a Blaine state. And while in the formation of the state league the idea of organization seems to be uppermost without regard to any man, and equally earnest and active support will be accorded to the party nominee, be it Blaine, Sherman or Lincoln, there is no mistaking the fact that the Minnesota republicans favor the Plumed Knight.

Here You Have It.  
The News wants more light and here it is:

Offer 1. We will furnish the city fifty or more arc lights, 1000 candle power, of as good a system as the Tomson-Houston, to be run all night, properly constructed on high poles, for \$50 per light per year.  
Offer 2. We will furnish the city fifty or more arc, 1400 candle power lights, same as the above, for \$60 per light.  
Offer 3. We will put in a plant on trial, and if satisfactory to the city, will sell it to the city for ten per cent. above cost.  
Offer 4. We will furnish the city with enough incandescent lights to light the streets as well as they are now lighted, for \$3,000 per year. All the above to be put in on trial and not to be taken unless perfectly satisfactory to the city. We to give a bond in the sum of \$25,000, with good sureties, conditions for the carrying out of these offers. The city to agree to take the lights for ten years and pay the above prices and give us a franchise (not exclusive) to put them in. If the city thinks best to buy the plant we guarantee that the cost of the street lights will be reduced to less than fifty dollars per light.

The News says our offer seemed wild, and we entertain no doubt whatever but that to those who were stuffed and crammed to their gizzards with Mr. Kindred's big talk and wild-cat schemes, our offer did seem a little wild. If, however, the council would have given us a hearing, whose offer then, thank you, would have seemed wild? Mr. Kindred's offer at \$125, or ours at \$50? Don't, pray don't, say anything about wild assertions. You only make yourself ridiculous.

The News asks us why we don't take the bet offered us. We never made a bet in our life. It is a blackguard's argument always, and is only employed by men when driven to the wall. "I'll bet you." What does it mean? "I'll bet you." "I'll bluff you if I can." That's all. An alderman who has so little regard for himself and his position as to meet a proposition brought before that body, with an offer to bet, must be lacking somewhere. We made a proposition to the council in good faith, and Mr. X. was opposed to it, but had no other reason to give for his opposition than "I'll bet you can't do it." We feel sorry for such a man. No, no, Mr. News, we don't want the bet.

Since the News is so fond of demanding proof, it may not be too much trouble for it to give us the items of cost of running the present plant, and show us how and why it need cost the city \$125 per light. Figure it out in a positive case, what the expense is made up of. You may be able to satisfy the people that we are wrong.

But isn't it somewhat amusing to see the News almost daily devoting a column or two of its valuable (?) space to such a frail, brainless, drunken and serpentine nonentity as it would have us to bet? One would naturally suppose that so vile a cause would be beneath the notice of such a virtuous gang. And yet they continue to nauseate the public with their little compliments concerning us, and all because we wanted an equal show with Mr. Kindred in the electric light business, and because we openly opposed and exposed what has become to be regarded as the most bare-faced steal ever witnessed in this city. But it gives us another opportunity—and we are glad of it—to ring it in the ears of the taxpayers of our city, that they are paying \$6,250 for what was offered for \$4,000, and for what the city could furnish itself for almost nothing. Remember it, for the end is not yet.

Kick again, Mr. News, we can stand it—if you can.

George Bancroft, who is physically and mentally active at nearly ninety, says that his strength is due to inflexible observance of a rule to get four hours a day in the open air.

A St. Louis gas company that never put \$100,000 outside of loans and earnings into the work of construction, has watered its stock up to \$80,000,000.

The Presbyterians of the United States propose to honor themselves by their centennial observance this year by paying \$1,000,000 for the benefit of superannuated ministers, their widows and children.

The ice carnival St. Paul is progressing to the satisfaction of its participants, especially the younger portion. The visitors from abroad are not quite so numerous as on former occasions, owing to a variety of causes, principally fear of blockades.

Dr. Norvin Green, who represents Jay Gould as President of the Western Union Telegraph Company, allows that if the Government insists, it will purchase the wires of that company for \$100,000,000 or so, but that they would rather not sell.

The Bank of England, the Bank of France and the Imperial Bank of Germany had together on December 31st a specie reserve aggregating \$750,635,315. This was again of \$18,187,541 over the 31st of December, 1886. The Bank of England held \$99,533,410; France, \$41,911,910; Germany, \$195,170,000.

The popular novelist, Rider Haggard, is the brother of the secretary of the British legation in this country, whose marriage at Washington in 1886 to Mrs. Carrie Carroll, a lady considerably older than himself, caused much talk at the time. The marriage was not a happy one, and a divorce—the second one in the wife's case—was the result.

Small pox has prevailed in San Francisco this winter, but not to an alarming extent. Up to the first of January 247 cases were reported in that city. Of the total number of cases, the Chinese furnished 10, of which 11 were dead or dying when found. This leaving 228 cases and 25 deaths among the white population, showing a death rate of only 9 per cent.

The prosperity of the State of California during the year 1887 was as marked as any previous 12 months within its history. Some 300,000 of new railroad have been laid; the assessed value of property has increased \$132,000,000. The wine and brandy products were very large, and no less than 50,000,000 pounds of canned goods and over 35,000,000 pounds of green fruit were shipped. It was also the banner year for immigration and tourists.

According to the latest reports to the controller of currency, the 3,070 national banks of the United States, with a capital of \$580,733,044, had loans and discounts to the amount of \$1,574,706,436 and their entire resources \$2,824,186,330, including \$150,240,443 of specie, of which \$73,077,376 was gold coin and \$186,431,000 in U. S. bonds to secure circulation and \$44,203,000 to secure deposits. The entire issue of national bank notes was \$107,165,010. In addition to their capital assets, they had a surplus fund of \$175,246,440 and other undivided profits to the amount of \$78,899,218.

Not long since it was rumored that Gen. James Longstreet had become so reduced in circumstances that he and family were likely to suffer for the actual necessities of life unless succor was soon extended. Acting upon this rumor, the Atlanta Constitution recently printed an article in which the raising of a relief fund was earnestly suggested. Upon the article being brought to the attention of Gen. Longstreet's wife she at once wrote to the paper asking a withdrawal of the general's name from that connection, and stating, though far from rich, he is able with what he owns, to live in comparative comfort the remainder of his life.

The reaper, mow, and binder manufacturers of the United States met the other day in Chicago and formed an association to regulate prices, production, etc., which is probably less ironclad than a full-fledged "trust," and less likely to excite the suspicions of the public, but the nineteen concerns which have joined say that the association is for "social ends only." This temporary statement is simply a confession that they are unwilling to face the odium of monopoly, even though it may not be of the most dangerous kind, and unless public opinion can be brought to take a very different view of "trusts" they will certainly have hard sledding in the United States.

A resolution has been introduced into the national House of Representatives by Mr. Anderson of Iowa to authorize the institution of judicial proceedings against various Pacific railroad companies. It contains in the preamble a charge of mismanagement and fraudulent manipulations of the affairs of the railroad companies embodied in the Henley resolution of last year, and directs the attorney general to bring suit against these companies to enforce the forfeitures decreed in the Thurman act. He is directed to include as parties defendant in the suit against the United States Pacific, the Great Northern, the Leland Stanford and Charles Crocker, and in the case of the Union Pacific, John B. Alley, Elijah Atkins, Ezra H. Bacon, Sidney Dillon, Jay Gould, Frederick L. Ames and Russell Sage. The attorney general is also directed to make application to the United States courts for the appointment of receivers to manage the trusts.

THE RECENT BLIZZARD IN THE EAST.

The storm which has raged at Oswego, N. Y., for several days was worse than any other of the kind in the history of the State. The wind was from the north, and the snow fell in great quantities. The thermometer was 10 degrees below zero, and the wind blew at 60 miles an hour. All trains on the Rome, Watertown and Saratoga roads were again abandoned.

The Delaware, Lackawanna & Western was also badly blocked and trains were delayed for several days. The blockade was the worst in years, and every effort was made to clear the tracks. The snow was as high as the wind filled the cuts upon soon as cleared.

Advices from the upper part of the state show that traffic is still held fast in the grip of Jack Frost. Hundreds of freight cars are laid up at East Syracuse, and live stock is being unloaded to save from starvation and freezing. The snow in the State of Shawangunk laid a child by death. The storm has prevented any arrangements for the funeral of the child.

Eleven passenger trains were stuck in the snow at Oswego. The snow was as high as the wind filled the cuts upon soon as cleared. The blockade was the worst in years, and every effort was made to clear the tracks. The snow was as high as the wind filled the cuts upon soon as cleared.

All trains on the Massachusetts branch of the New York and New England were abandoned. A driver of the North River road, an eighty rods long and fifteen feet deep was washed away, and the bridge was destroyed. Reports from Northern New England indicate an uninterrupted continuation of the snow, and the snow is badly drifted and it will take some time to clear the tracks.

Reports from Massachusetts, Pa., say that the snow is badly drifted and it will take some time to clear the tracks. The snow is badly drifted and it will take some time to clear the tracks. The snow is badly drifted and it will take some time to clear the tracks.

## WORTH OF THE SEASON.

THE RECENT BLIZZARD IN THE EAST.

The storm which has raged at Oswego, N. Y., for several days was worse than any other of the kind in the history of the State. The wind was from the north, and the snow fell in great quantities. The thermometer was 10 degrees below zero, and the wind blew at 60 miles an hour. All trains on the Rome, Watertown and Saratoga roads were again abandoned.

The Delaware, Lackawanna & Western was also badly blocked and trains were delayed for several days. The blockade was the worst in years, and every effort was made to clear the tracks. The snow was as high as the wind filled the cuts upon soon as cleared.

Advices from the upper part of the state show that traffic is still held fast in the grip of Jack Frost. Hundreds of freight cars are laid up at East Syracuse, and live stock is being unloaded to save from starvation and freezing. The snow in the State of Shawangunk laid a child by death. The storm has prevented any arrangements for the funeral of the child.
